Do you have your documents saved for this hurricane season?

Harold Bramson of HB Media Solutions will come to your home and take pictures of all documents and photos, then scan those photos, and place them on a DVD.

“When a hurricane hits you want to have all your documents in a safe area,” said Harold.

Harold makes house calls from Dade, Broward, and Palm Beach Counties and on-line orders nationwide.

“It’s beneficial to start thinking about preparing for this year’s hurricane season,” he said. “If you can’t do it, HB Media Solutions will do it for you.”

Harold can also put family videos originally on VHS or other formats of video to DVD format. He has equipment that can switch older video and audio equipment to the latest models including: VHS, VHS-C, Sony Hi-8, Mini-DV, cassette tapes, records, all audio to CD, and 8 tracks. Some of the services include putting family photos onto a DVD, completing a slide show, taking records (LP’s) and putting them onto

CDs, and mobile services to your home.

“We have equipment to allow customers to view VHS videos. If you do not have a VCR and do not know what is on your old video tapes, we will bring our equipment to your home so you can view the tapes. Then, I will bring your videos back to our office and return the finished product in a few weeks.”

Harold always had a passion for computers, which have assisted him

with his Cerebral Palsy.

“I have found computers to be valuable to me. My handwriting is a major problem since I have a disability,” he said.

For more information, contact Harold at 954-681-4061 and www.hbmediasolutions.net.

Harold sets up a booth at the Quarterdeck restaurant on Sunrise and Flamingo. Anyone who makes an order that totals over \$40 will receive a gift certificate to the restaurant.
